NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the three month period ended 31 March 2018

1. INCORPORATION AND ACTIVITIES

Kuwait Energy plc (“the Company”) is a company incorporated on 12 September 2011 in Jersey in accordance with the Commercial Companies Law in the Bailiwick of Jersey.

The Company and its subsidiaries (together referred to as “the Group”) have been established with the objective of exploration, production and commercialisation of crude oil and natural gas. The Company’s registered address is Queensway House, Hilgrove Street, St Helier, Jersey, JE1 1ES.

These condensed set of financial statements do not include all of the information required for a full annual financial report and are to be read in conjunction with the Group’s financial statements for the year ended 31 December 2017, which were prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU). The financial information for the year ended 31 December 2017 in this report does not constitute statutory accounts. This information has been derived from the statutory accounts for the year ended 31 December 2017, a copy of which is available on the Company’s website and in process of filing with the Jersey Registrar of Companies. The auditor’s report on these accounts was unqualified and did not draw attention to any matters by way of emphasis.

2. ACCOUNTING POLICIES**Basis of preparation**

The annual financial statements of the Group are prepared in accordance with IFRS as adopted by the European Union. The condensed set of financial statements included in this three months 2018 financial report has been prepared in accordance with International Accounting Standard 34 ‘Interim Financial Reporting’, as adopted by the European Union (EU).

The accounting policies used in the preparation of this condensed set of financial statements are consistent with those used in the preparation of the annual consolidated financial statement for the year ended 31 December 2017, except for the adoption of IFRS 9 - Financial Instruments (“IFRS 9”) and IFRS 15 - Revenue from Contracts with Customers (“IFRS 15”) from 1 January 2018. The key changes to the Group’s accounting policy resulting from its adoption of IFRS 9 and IFRS 15 are summarised as below:

IFRS 9 Financial Instruments

The Group has adopted IFRS 9 effective from 1 January 2018. IFRS 9 addresses the classification, measurement and recognition of financial assets and financial liabilities, introduces a new impairment model for financial assets, as well as new rules for hedge accounting. It replaces the old standard of IAS 39 in its entirety.

The classification and measurement of financial assets, except equity instruments and derivatives, are now based on a combination of the entity’s business model for managing the financial asset and the contractual cash flow characteristics of the financial asset. The classification and measurement of financial liabilities is materially consistent with that required by IAS 39 with the exception of the treatment of modification or exchange of financial liabilities which do not result in de-recognition. No material impact as a result of IFRS 9’s classification and measurement requirements has been identified.

The new impairment model requires the recognition of ‘expected credit losses’, in contrast to the requirement to recognise ‘incurred credit losses’ under IAS 39. The Group has undertaken an assessment of the classification and measurement requirements, as well as the new impairment model, and no significant impact on the financial statements has been identified.

IFRS 15 Revenue from Contracts with Customers

The Group has adopted IFRS 15 effective from 1 January 2018. IFRS 15 supersedes IAS 11 - Construction Contracts, IAS 18 – Revenue and related interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in scope of other standards. The new standard established a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, an entity recognises revenue when a performance obligation is satisfied, i.e. when ‘control’ of the goods or services underlying the particular performance obligation is transferred to the customer. The adoption of IFRS 15 is resulting in no material change in the revenue recognition policy of the Group and no adjustment in its financial results of the Group. However, the Group may include increased qualitative disclosures regarding the terms of the Group’s sales arrangements, including the basis for determining pricing, significant payment terms, and elements of variable consideration, if required.

2. ACCOUNTING POLICIES (CONTINUED)**Going concern**

As at 31 March 2018, the Group was funded principally by a combination of its cash balances, equity, borrowings, convertible loans and cash generated from operating activities. The Group has significant levels of planned capital expenditure during the next 12 months including field development expenditures in Iraq, although much of this is discretionary. The Group entered into a farm-out agreement with Dragon Oil (a wholly owned subsidiary of Emirates National Oil Company Limited, the national company of Dubai), a partner in the Iraq Block 9 field, to assign a 8.57% participating interest in the Iraq Block 9 field for a cash consideration of US\$100 million (see note 10). Further, the Group has received an irrevocable notice of conversion from Qatar First Bank holding 50% of the convertible loan principal, to convert the principal and part of the premium amounts outstanding into ordinary shares of the Company. This Block 9 farm-out, which is subject to the Iraqi government, and conversion of convertible loan into ordinary shares of the Company will materially improve the Group's liquidity position.

Management has performed detailed cash flow scenario analysis including a number of downside scenario sensitivities and available mitigation factors. Management's analysis concluded that in the event of one or more of these reasonable worst case scenarios occurring there are available mitigating actions within the control of the Directors that would allow the Company to meet its commitments and liabilities as they fall due within the going concern assessment period. Although it falls outside the going concern assessment period, management have also considered the maturity of the US\$250 million senior secures notes in 2019 and made an assessment of the refinancing options available.

Therefore, after making enquiries the Directors have a reasonable expectation that the Group will have adequate resources to continue in operational existence for the foreseeable future, being at least the next 12 months from the date of approval of this condensed set of financial statements. Accordingly, the Directors continue to adopt the going concern basis of accounting in preparing this condensed set of financial statements.

For the three month period ended 31 March 2018

3. SEGMENTAL INFORMATION

Information reported to the Group's Executive Management, the chief operating decision maker, for the purposes of resource allocation and assignment of segment performance is specifically focused on the geographical area, namely Egypt, Iraq and rest of the world (included in others). The Group has one class of business, being the exploration, development, production and sale of crude oil and natural gas.

Other operations include unallocated liabilities of a corporate nature comprising the Company's external debt and other non-attributable corporate liabilities. The unallocated capital expenditure for each period comprises the acquisition of non-attributable corporate assets.

There has been no change in the basis of segmentation or in the basis of measurement of segment profit or loss in the period.

The following is an analysis of the Group's revenue and results by reportable segments:

NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the three month period ended 31 March 2018

4. TAXATION

Tax charge for the three month period is US\$2.7 million (31 March 2017: US\$ 2.3 million, 31 December 2017: US\$ 7.1 million). Corporation tax in the Company's country of domicile is calculated at 0% on assessable profits for all the periods, this rate being the applicable statutory tax rate for international businesses that are tax resident in Jersey. Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdiction and comprises the remainder of the charge.

5. EARNINGS/(LOSS) PER SHARE

The calculation of basic earnings/(loss) per share is based on the profit for the period after taxation attributable to owners of the Company of US\$ 11.4 million (31 March 2017: US\$ 11.6 million, 31 December 2017: loss of US\$ 52.8 million) and a weighted average number of shares, net of treasury shares, of 327.1 million (31 March 2017: 326.6 million, 31 December 2017: 326.9 million).

There was no difference between basic and diluted earnings/(loss) per share for all the periods presented. The only potential dilutive instruments were the outstanding Employee Incentive Scheme (EIS) share awards, which have no material dilution impact on earnings/(loss) per share, together with shares to be issued on conversion of convertible loan which are not included in the calculation for either period as the number of shares that could be exercised is dependent on future events.

6. INTANGIBLE EXPLORATION AND EVALUATION ('E&E') ASSETS

| | E&E assets |
|---|-----------------------|
| Cost | US\$ 000's |
| As at 1 January 2017 | 27,692 |
| Additions | (438) |

| Additions | 685 |
| Transfer to Property, plant and equipment | (1,691) |
| As at 31 March 2018 | <u><u>-</u></u> |

As at 31 March 2018, exploration costs of US\$ nil (31 December 2017: US\$ 1.0 million) were capitalised pending further evaluation of whether or not the related oil and gas properties are commercially viable, in line with the Group's accounting policy for oil and gas assets.

During the period ended 31 March 2018, US\$ 1.7 million (31 December 2017: US\$ 6.2 million) exploration costs associated with proven commercial reserves in Egypt were transferred to property, plant and equipment.

In 2017, unsuccessful exploration expenditure written off amounted to US\$ 20.1 million. This includes write-off of unsuccessful exploration expenditure of US\$ 1.6 million related to Abu Sennan in Egypt and US\$ 18.5 million relating to Block 49 in Yemen.

| As at 31 December 2017 | 498,832 | 10,229 | 509,061 |

Other fixed assets include a carrying amount of US\$ 5.9 million (31 December 2017: US\$ 6.1 million) in respect of assets held under finance leases.

The additions to oil and gas assets mainly relate to Siba and Block 9 in Iraq, and include US\$ 4.3 million (31 December 2017: US\$ 17.1 million) of finance costs on qualifying assets capitalised during the period and US\$ 0.7 million (31 December 2017: US\$ 3.5 million) of fair value loss on convertible loans capitalised.

In accordance with IAS 36 *Impairment of Assets* the Company has made an assessment for indicators of impairment and has not identified any significant indicators. Based on this review, the Group believes no impairment is required at 31 March 2018. In 2017, the Group recognised an impairment loss of US\$84.7 million, including US\$33.9 million on the Mansuriya field in Iraq and US\$50.8 million on the Block 5 field in Yemen, in the consolidated income statement, due to re-classification of 2P reserve of these assets to contingent resources. Further, in 2017, primarily due to increase in commercial reserve used in estimating the future cash flows of certain impaired assets, the Group recognised an impairment reversal of US\$15.6 million on BEA fields in Egypt, in the consolidated income statement.

Trade receivables includes US\$ 26.3 million (31 December 2017: US\$ 55.6 million) arising in Iraq, to be settled by having physical delivery of crude oil that will be sold under the crude oil prepayment agreement.

The Group's trade receivables includes US\$ 37.0 million (31 December 2017: US\$ 39.9 million) arising in Egypt which is past due at the reporting date and for which the Group has not made any provision as there has not been a significant change in credit quality and the amounts are still considered recoverable. In making the judgement about recoverability, factors considered include strong track record of ultimate settlement. Subsequent to 31 March 2018, the Group has collected US\$44 million which recovered substantially all the past due balance outstanding at 31 March 2018.

NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the three month period ended 31 March 2018

10. ASSETS HELD FOR SALE

In February 2018, the Group signed a farm-out agreement with Dragon Oil (a wholly owned subsidiary of Emirates National Oil Company Limited, the national company of Dubai), a partner in the Iraq Block 9 field, to assign a 15% participating interest in the Iraq Block 9 exploration, development and production service contract, with an effective date of 1 January 2018. Under the terms of the agreement, 6.43% participating interest in Block 9 will be assigned to Dragon Oil in settlement of a dispute with Dragon Oil in relation to non-controlling interest in the Block 9 plus a balancing payment, and 8.57% participating interest in Block 9 will be assigned to Dragon Oil for a cash consideration of US\$100 million. Following completion of this transaction, which is subject to the written approval of the assignment by the Iraqi government, the Group will have 45% participating interest in Block 9 and will continue as an operator.

The proceeds of disposal are expected substantially to exceed the book value of the net assets and accordingly no impairment losses have been recognised on the classification of assets and liabilities as held for sale.

In 2017, the Group has completed farm-out transaction relating to its 20% paying and 15% revenue interest in the Iraq Siba area gas development and production service contract and a 25% interest in the Egypt Abu Sennan area petroleum sharing contract. A loss of US\$2.6 million on assets held for sale was recognised in the 2017 consolidated income statement, relating to the period between the effective date and completion.

The major classes of assets and liabilities comprising the assets classified as held for sale (31 December 2017: US\$ nil):

| | 31 March 2018 Unaudited US\$ 000's |
|---|---|
| Property, plant and equipment | 40,759 |
| Inventories | 93 |
| Trade and other receivables | 733 |
| Cash and cash equivalents | 1,460 |
| Total assets classified as held for sale | <u>43,045</u> |
| Trade and other payables | 15,906 |
| Total liabilities directly associated with assets classified as held for sale | <u>15,906</u> |
| Net assets of disposal groups | <u>27,139</u> |

For the three month period ended 31 March 2018

12. CONVERTIBLE LOANS

| | 31 March 2018 <u>Unaudited</u> US\$ 000's | 31 December 2017 <u>Audited</u> US\$ 000's |
|----------------------|--|---|
| As at 1 January | 158,204 | 136,273 |
| Change in fair value | 6,586 | 32,255 |
| Payment | <u>(2,100)</u> | <u>(10,324)</u> |
| As end of the period | <u>162,690</u> | <u>158,204</u> |

The change in fair value since the prior period arises as a result of changes in the forecasted cash flows, and forecasted likelihood and timing of an equity offering. Of this amount US\$ 0.7 million (31 December 2017: US\$ 3.5 million) has been capitalised to qualifying assets in the period, see note 7, resulting in a net charge to the income statement of US\$ 5.9 million (31 December 2017: US\$ 28.8 million).

In March 2018, the Group has received an irrevocable notice of conversion from Qatar First Bank holding 50% of the convertible loan principal, to convert the principal and part of the premium amount outstanding into ordinary shares of the Company under terms of the convertible Murabaha.

KEC SPV 1 (an entity managed and controlled by Abraaj Investment Management Limited) holds other 50% of the convertible loans principal and its amended first repayment date is due by end of June 2018. The loan is repayable in three instalments within six months starting from first repayment date. The lender have option to request conversion of loan into ordinary shares of the Company prior to the first repayment date in certain circumstances as set out in the loan agreement.

The convertible loans are classified as Level 3 in the fair value hierarchy in all the periods presented. Level 3 fair value measurements are those derived from inputs that are not based on observable market data (unobservable inputs). The group uses a weighted average discounted cash flow technique to determine the fair value of the loans. The significant inputs considered in the valuation are likelihood and timing of a conversion event and the discount rate. The discount rate used was in the range of 10-18% (31 December 2017: 10-18%). Possible changes to the likelihood and timing assumptions in the fair value measurement could have a maximum impact of reducing the liability by US\$30.4 million.

13. CONTINGENT LIABILITIES AND CAPITAL COMMITMENTS

| | 31 March 2018 <u>Unaudited</u> US\$ 000's | 31 December 2017 <u>Audited</u> US\$ 000's |
|---------------------------------|--|---|
| a) Capital commitments | 28,972 | 26,015 |
| b) Agreement to purchase shares | 5,396 | 5,362 |

Capital commitments includes committed seismic expenditures, exploration and development well drilling as specified in the exploration and development licences.

During the ordinary course of business in the jurisdictions in which the Group operates the Company receives various claims and penalty challenges. All such issues are considered on a case by case basis including their legal and contractual merits, with external advice taken where necessary. Any claims or penalties are disclosed if it is estimated to have more than a remote chance of being incurred.

14. SUBSEQUENT EVENT

Pursuant to shareholders approval in the AGM of the Company held on 13 May 2018, the Company has buy back 4,032,260 shares and cancelled it. Following this cancellation, the Company has 323.2 million shares in issue.
